

Failure to install per the installation instructions may invalidate your guarantee, please follow instructions carefully. In the unlikely event that this product should fail please contact the retailer from which the item was purchased.

Before you start

- Please read these instructions carefully before commencing the installation work.
- Store the shower tray in a flat and horizontal position until it is installed.
- Protect the top surface of the tray during installation and during subsequent works using the packaging the tray was supplied with.
- Inspect the tray for any damage before starting installation.
- Can be fitted on solid floor or wooden floor; please see appropriate section for instructions.

Important

- Always check for compatibility of colour and surface prior to installation as slight variations can occasionally occur. If a problem is identified, please contact your supplier immediately, who will be happy to deal with any issues.
- Once a tray is fitted or cut, it is deemed acceptance of product.
- Check the tray thoroughly for signs of damages or defects and NEVER begin installation until you are 100% happy.
- Claims for defects/damages cannot be made after installation begins.

Fitting of Waste Trap

- Please refer to the installation guide included with the waste trap.

Important

- If tile adhesive or some other material comes into contact with the shower tray, clean off with appropriate cleaning products. DO NOT USE any acidic or abrasive cleaners, or rub the surface of the tray directly.

Care & Maintenance

- Cleaning and maintenance of Tissino shower trays does not require any specific maintenance. Usually, rinsing the tray properly and wiping with a soft cloth to ensure there is no cleaning product residue left is sufficient.
- Clean with liquid soap and water and a soft non-abrasive cloth or sponge. Rub gently with a circular motion and rinse with plenty of water.
- DO NOT use cleaning products containing acetone or alcohol, or aggressive cleaning products such as bleach, hydrochloric acid, caustic soda or detergents containing anionic surfactants.
- In areas of hard water, it is recommended that the shower tray is cleaned more frequently to prevent the build-up of limescale on the surface.

Failure to install per the installation instructions may invalidate your guarantee, please follow instructions carefully. In the unlikely event that this product should fail please contact the retailer from which the item was purchased.
