tissino

Creating exceptional bathroom experiences
is at the heart of Tissino.

Inspired by a passion for Italian design, our products
expertly balance function and form to uphold
a quality of excellence which is made to last.
Our core collection is complemented by a design-led,
showroom only range Esclusiva – which has been
meticulously crafted in line with moving trends.

From showering to heating, our extensive range
undergoes rigorous quality and performance testing,
with ease of installation always a priority.

With decades of experience in bathroom design
and innovation, our team are dedicated to making
your space feel like a sanctuary which can be enjoyed
for many years to come.

At Tissino, every product begins its journey with our in-house design team. Inspired by the harmony of Italian design and driven by a passion for innovation, our experts start by imagining how each piece can enhance the bathroom experience. From the first sketch to the final detail, every product is thoughtfully designed to balance style, functionality, and quality.

The journey doesn't end there. Once a concept is born, it undergoes a meticulous process of refinement. Our team works rigorously, testing and perfecting every element to ensure it meets the highest standards of performance and durability. Whether it's a sleek shower tray or a beautifully crafted, modern mirror, nothing leaves our hands until it's proven to excel in both form and function.

We pride ourselves on offering a diverse product range that caters to all tastes and budgets, combining the latest trends with timeless elegance. Behind every design lies a story of dedication, craftsmanship, and an unwavering commitment to quality—so you can trust that every Tissino piece is made to transform your bathroom into a space you'll love for years to come.

MATT BLACK 

Make a bold statement with Matt Black profiles from Tavo. This striking finish adds a contemporary edge and strong contrast, perfect for creating a stylish, modern bathroom. Matt Black's subtle texture gives depth without glare, combining trend-forward design with practical durability.

Below you'll find three distinct styles; the glass-to-ceiling arm offers a strikingly minimalist architectural look that draws the eye upward, while the front panel with stabilising bar presents a more classic, timeless design that balances style with function; both bring height and stability to your shower space. Adding a flipper panel creates extra functionality, with the ability to rotate 180 degrees for extra coverage.

Configuration L: Grey Glass 900mm Front Panel with Matt Black Glass-to-Ceiling Arm (RRP: £524)

MIRRORS

INTRODUCTION

A mirror is more than a finishing touch, it’s a key design feature that helps define the mood and functionality of bathroom design. Tissino mirrors and cabinets combine contemporary style with intelligent features, with all mirrors incorporating integrated demister functionality for a clear reflection at all times.

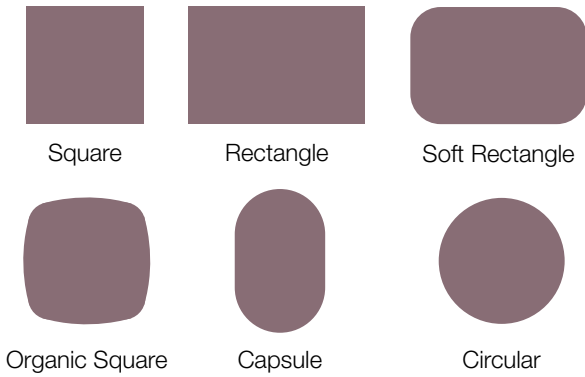

SHAPES

Mirror shape plays a big role in the overall look and balance of your bathroom. Whether you want clean, architectural lines or softer, more organic curves, the right shape can complement your layout and enhance your design style. Our mirror ranges are available in a variety of options including square, rectangle, soft rectangle, organic square, capsule and circle designs.

Discover more about our Mirror ranges, visit tissino.co.uk

Options include practical storage solutions that enhance everyday use while elevating the overall look of your space. Use the guide below to explore our mirror ranges and mirror cabinets, and compare features such as front or back lighting, adjustable colour temperature, and brightness control.

NEW: ECLIPSE GLASS TECHNOLOGY

Exclusive to the Deluna mirror range, Eclipse glass technology creates a sleek, uninterrupted finish by hiding the front LED lighting strip completely when the mirror is switched off. This gives Deluna a clean, seamless look, with no visible lighting detail until you need it.

When illuminated, the lighting appears effortlessly through the glass, delivering crisp front-facing light for precision tasks and soft ambience when paired with backlighting. The result is a refined, ultra-discreet design that combines statement styling with intelligent functionality.

LIGHTING STYLE

Lighting style can make a big impact on your overall experience. Back-lit mirrors create an ambient glow behind the mirror, adding depth and a focal point, while front-lit mirrors provide direct illumination for precision tasks.

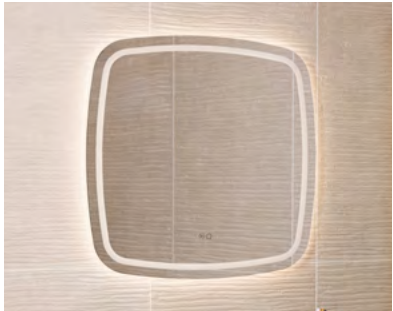

Our Deluna mirror offers the best of both, with the option to cycle between front-lit, back-lit, or both at once.

COLOUR TEMPERATURE

Colour temperature refers to the tone of the light and can change both the mood and how you see your reflection. Warmer tones create a soft ambience, neutral white is ideal for everyday use, and cooler tones offer clearer light for the finer details.

Most of our mirrors feature adjustable colour temperature, so you can switch between settings to suit your needs.

Warm Lighting 2700K

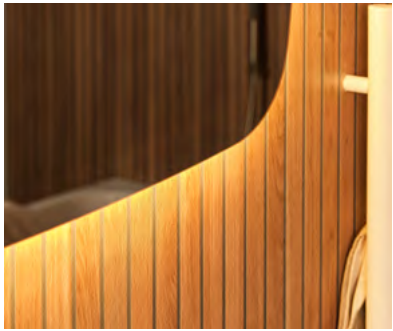

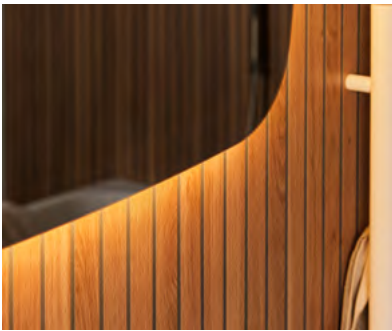

DIMMABLE

Dimmable lighting lets you adjust brightness from bright, task-focused illumination to a softer glow for a more relaxing atmosphere. It’s ideal for tailoring your mirror to different routines, times of day or mood.

Many of our mirrors include adjustable brightness control, while some ranges feature a fixed light level.
